

# CHIEF OF PARTY—WASH

## Antananarivo, Madagascar

CARE is seeking a Chief of Party (COP) for an anticipated USAID-funded Water, Sanitation, and Hygiene (WASH) project in Madagascar. International relocation and allowances may be available. This position is contingent on project award and funding.

### Responsibilities:

- Oversee the completion of all technical requirements, including project results and deliverables.
- Build and maintain productive working relationships with USAID, project partners, and key stakeholders. Serve as the primary liaison among all project stakeholders.
- Manage the project's operational, financial, and administrative priorities; direct the planning and budgeting processes. Create or adapt management systems in line with CARE's standard operating procedures, ensuring consistency with project needs.
- Build partnerships among international, national, and community-level stakeholders
- Represent the project at high-level meetings and conferences.
- Supervise and mentor senior staff, delegating responsibilities as appropriate.

### Qualifications:

- Master's degree in a relevant technical field.
- 10 or more years of progressively responsible international work experience managing water development programs, including WASH, productive water use, multiple water service, database management, etc.
- Prior supervisory work experience including direct supervision of professional and support staff.
- Proven exceptional leadership in the design, management, implementation, and M&E of similar-sized international donor-supported programs. Experience with USAID preferred.
- Professional working proficiency in English and French.

### About CARE

CARE is a leading humanitarian organization fighting global poverty. We place special focus on working alongside poor women because, equipped with the proper resources, women have the power to help whole families and entire communities escape poverty. Women are at the heart of CARE's community-based efforts to improve basic education, prevent the spread of disease, increase access to clean water and sanitation, expand economic opportunity and protect natural resources.
