

CALL FOR BOARD MEMBERS

Gravity Water is currently looking for passionate and experienced professionals to join their Board of Directors and Technical Advisory Board.

ABOUT GRAVITY WATER

Gravity Water is a 501(c)(3) Non-Profit Organization that focuses on turning rain into safe drinking water for schools in need around the world. Gravity Water achieves this through a brand new, innovative approach that combines rainwater harvesting, elevated storage, and gravity-fed filtration, providing schools with an on-site source of safe drinking water without dependency on pumps or electricity.

Gravity Water is currently providing over 30,000 students in five countries with safe drinking water, with a current focus on its programs in Nepal, Vietnam, and Indonesia.

WHO WE'RE LOOKING FOR

Gravity Water is at a critical stage of organizational development as it prepares to scale its programs exponentially in the coming years. To do this, Gravity Water is transitioning from operating from a charitable-based approach to a local partnership model through leveraging funding to incentivize partnerships with local governments and organizations.

Gravity Water is seeking experienced and passionate individuals to join the organization's Board of Directors and Technical Advisory Board to advise the Executive Director in ensuring the organization grows in the right direction and has access to the resources needed to scale.

BOARD OF DIRECTORS: Assist the organization in its strategic planning to secure the monetary and physical resources required to achieve scale. Ensure compliance and good governance of the organization.

TECHNICAL ADVISORY BOARD: Assist in mentoring and advising the Executive Director and Leadership Team in professional growth (financial, legal, Ybj JfcbaybHJ' gcVU'z'`YUXYfg\]dž [fck h ")

WHO YOU'LL BE JOINING

JOANNE HALE

50+ years in International Development, 30+ years with USAID leading national programs in Asia and Africa. Santa Clara University; Peace Corps; Bill and Melina Gates Foundation; Context Global Development.
