Founded in 2008, Eau et Vie is a French non-confessional and non-political international solidarity association, inspired by an idea: slum dwellers also deserve and can afford sustainable water supply in their homes.

The levers of action are access to a water service at home, the absence of which is a real scourge in densely populated urban areas, and whose impact is also achieved through community building.

In 2021, Eau et Vie manages several programs in 2 countries (Bangladesh and the Philippines) and has 50,000 beneficiaries, for a global budget of 3.2 M€, with mixed financing (private and public).

Eau et Vie is seeking for a new:

Sanitation and Solid Waste Technical Coordinator

based in the Philippines

As part of the Head Office in the Philippines and under the supervision of Water and Life Program Manager, the technical coordinator develops Sanitation (San) and Solid Wastes (SW) projects throughout the areas of interventions in the country and ensures their implementations.

The main responsibilities are the following:

- Take part in the definition of Water and Life strategy by bringing the insights on San and SW projects
- Ensure the implementation of the San and SW projects with good coordination among the branch teams
- Represent the organization with local authorities and local and international partners, and negotiate with them if necessary
- Mobilize and coordinate the field team taking part of San and SW projects without hierarchical supervision
- Participate in the optimization of the organization's procedures and tools
- Ensure the coordination and exchanges of good practices with teams working in Bangladesh on these topics.

POSITION TO BE FILLED on 07/11/2022

Couples of weeks of Onboarding will be organized at the HQ (if possible) and then in the Philippines

Education & Professional Background

Holder of at least a **Master's degree/MBA in Project Management or Engineering** (Sanitation, Water, Waste management), you have a proven professional experience of **at least four years**, including one experience of technical support.

A 2-year-long experience in **international context** is compulsory, with at least one year spent on **development programs**.

First contact with the Philippines context and/or one of Eau et Vie's fields of interventions are more than strong assets.

A first experience in **urban areas** is a strong asset. Aware of local and international San and SW policies, you want to be part of their declination at a very local level.

You appreciate to design, implement and monitor programs. And in the same time, you can smoothly lead discussions with communities, authorities and partners.

Patience, good communication skills and sense of pedagogy will be helpful in a context of implementing new services.

Language skills

Fully proficiency in English is compulsory. Knowledge of French would be a strong asset.

Conditions

Mission based the Philippines, with regular field visits around the country. HO in Cebu and 4 branches in Cavite, Cebu, Mandaue and Leyte.

Full time position

Status: Expatriation under the status of VSI for 12 months.

Compensations & Benefits:

- Salary according to Eau et Vie internal grid
- 6 weeks of annual paid leaves
- Health insurance and medical repatriation insurance
- One round-trip ticket from your place of residence (arrival and departure).

How to apply? Please send your complete application to Anne Lefevre, HR Manager at recrutement@eauetvie.org.
