

Job Advertisement

Founded in 2008, Eau et Vie is a French non-confessional and non-political international solidarity association, inspired by an idea: slum dwellers also deserve and can afford sustainable water supply in their homes.

The levers of action are access to a water service at home, the absence of which is a real scourge in densely populated urban areas, and whose impact is also achieved through community empowerment.

In 2021, Eau et Vie manages several programs in 2 countries (Bangladesh and the Philippines) and has 50,000 beneficiaries, for a global budget of 3.2 M€, with mixed financings (private and public).

Eau et Vie is seeking for a new:

Hygiene and Community Empowerment Technical Advisor

based in the Philippines or Bangladesh for 12 months

and/or possibility to join the HQ in France (Nantes)

The technical advisor on Hygiene (Hyg) and Community Empowerment (CE) will be under the supervision of the HQ but ideally based in the Philippines or Bangladesh to ensure a high knowledge of our program implementation (needs and challenges).

The technical advisor will ensure technical and methodological support to our team members involved in these activities in the Philippines and in Bangladesh.

The main responsibilities are the following:

- Develop the strategy on Hyg and CE in accordance with the Strategic Plan and the logical framework, and develop contents and tools for awareness sessions,
- Provide methodological and technical support to the program management on Hyg and CE in implementing the strategy,
- Strengthen the capacities of the teams on these themes by developing trainings tools,
- Support the Partnerships and Communication Department in fundraising,
- Representing E&V and its programs,
- Ensure a close collaboration with the M&E department.

POSITION TO BE FILLED ASAP

Couples of weeks of Onboarding will be organized in the HQ (if possible)

Education & Professional Background

Holder of at least a **Master's degree/MBA in Project Management or Social Sciences** (Geography, Sociology, Anthropology, Urban Development Management, Community Development, Public Health), you have a proven professional experience of **at least three years**, including one experience of technical support if possible.

A 1-year-long experience in **international context** is compulsory, with at least a component spent on **development programs** on Hygiene or Community Empowerment.

A first experience with qualitative and quantitative research methods in a field setting is compulsory.

You should have a **solid understanding and knowledge of Hygiene and Community Empowerment key stakeholders**.

First contact with **the Philippines or Bangladesh** context is more than a strong asset.

A first experience in urban areas is a very strong asset.

Eager to support the operational teams, your adaptation and easy-going way of working is essential.

Patience, good communication and training skills will be helpful in a context of advising and supporting teams without hierarchical link.

Your ability to manage and prioritize your own workload and work autonomously with a remote management is key.

Language skills

Fully proficiency in English is compulsory. Knowledge of French would be a strong asset.

Conditions

Mission based the Philippines in Cebu City (HO) or in Bangladesh in Dhaka (HO) or in Nantes (HQ), with regular field visits in the Philippines (4 branches) and Bangladesh (2 branches).

Full time position

Status: Initial contract of 12 months based in the Philippines or Bangladesh. Nature of contract according to the profile. Possible to be based in France (Nantes) under French contract.

Compensations & Benefits:

- Salary according to Eau et Vie internal grid
- 6 weeks of annual paid leaves
- Health insurance and medical repatriation insurance
- One round-trip ticket from your place of residence (arrival and departure).

How to apply? Please send your complete application to Anne Lefevre, HR Manager at recrutement@eauetvie.org.
