

Water Program Analyst (Term until March 31/24)

Division: Science & Licensing

Competition Number: **WSA-58-2024/25**

Location: Saskatoon, SK

Salary: \$40.48 - \$50.63 per hour (Classification 9)

Are you passionate about doing meaningful work? Do you care about water as one of our most important resources? The Water Security Agency is seeking a Water Program Analyst to join the Standards and Approval team.

Reporting to the Standards Manager, an employee in this position conducts research and evaluates and reports on the efficacy of Saskatchewan Water Security Agency's water management and governance programs.

This employee develops and modifies standards and performance indicators for assessing the performance of water/wastewater management and licensing programs such as water and wastewater certification, safe drinking water, wastewater, stormwater, water allocation, aquatic habitat protection and informatics.

The position also provides advice/training to both internal and external clients regarding new/modified water regulations, policies, and programs.

You will also analyze, research and provide recommendations to the development and implementation of public reporting of water quality indicators such as the Canadian Water Quality Index for Saskatchewan water bodies, Saskatchewan's State of the Environment and

The Saskatchewan's Annual Drinking Water Report.

The successful candidate will have a Degree in Civil or Environmental Engineering, Biology, Chemistry, Physics, Biology, Microbiology, Biochemistry, Environmental Science or related Biological Science and 5 years of related experience.

You will also possess or be eligible to obtain a level 2 water treatment and Distribution and level 1 Wastewater collection and treatment course and exam.

We offer rewarding career opportunities, competitive salaries and a comprehensive benefits package. This role is subject to a satisfactory criminal record check.
