

Request for Proposals (RfP)

Collection of (meta-) data on water (meteo) and river system monitoring network, Ma an Neun-Ca rivers, Lao PDR and assessment of its functionalities and performance.

Viet Nam/Lao PDR Country Office, Hanoi

Reference: IUCN 26-08-24 DR03794.C5; Fostering Water and Environmental Security in the Ma and Neun - Ca Transboundary River Basins and Related Coastal Areas

Welcome to this Procurement by IUCN.

You are hereby invited to submit a Proposal. Please read the information and instructions carefully because non-compliance with the instructions may result in disqualification of your Proposal from this Procurement.

1. REQUIREMENTS

A detailed description of the services and/or goods to be provided can be found in **Annex 1**.

2. CONTACT DETAILS

During the course of this procurement, i.e. from the publication of this RfP to the award of a contract, you may not discuss this procurement with any IUCN employee or representative other than the following contact. You must address all correspondence and questions to the contact, including your Proposal.

IUCN Contact : Mr. Rien Dam, CTA, Ca-Ma project, rien.dam@iucn.org; Nhung.phamhong@iucn.org

1. Procurement timetable

This timetable is indicative and may be changed by IUCN at any time. If IUCN decides that changes to any of the deadlines are necessary, we will publish this on our website and contact you directly if you have indicated your interest in this procurement.

DATE	ACTIVITY
February 3, 2025	Publication of the Request for Proposals
February 13, 2025	Deadline for submission of questions
February 15, 2025	Planned publication of responses to questions
February 24, 2025	Deadline for submission of Proposals to IUCN ("Submission Deadline")
February 28, 2025	Planned date for contract award
March 1, 2025	Expected contract start date

Please email the IUCN contact to express your interest in submitting a Proposal by the deadline stated above. This will help IUCN to keep you updated regarding the procurement.

1. Completing and submitting a proposal

Your Proposal must consist of the following four (4) separate documents:

- a. Signed Declaration of Undertaking (**see Annex 2**)
- b. Technical Proposal and CV's of the designated experts (see Section 4.1 below)
- c. Financial Proposal (see Section 4.2 below)

Proposals must be prepared in English.

Your Proposal must be submitted by email to the IUCN Contact (see Section 2). The subject heading of the email shall be [RfP Reference – bidder name]. The bidder's name is the name of the company/organisation on whose behalf you are submitting the Proposal, or your own surname if you are bidding as a self-employed consultant. Your Proposal must be submitted in PDF format. You may submit multiple emails suitably annotated, e.g. Email 1 of 3, if attached files are too large to suit a single email transmission. You may not submit your Proposal by uploading it to a file-sharing tool.

4.1 Technical Proposal

The Technical Proposal must address each of the criteria stated below explicitly and separately, quoting the relevant criteria reference number (left-hand column). Proposals in any other format will significantly increase the time it takes to evaluate, and such Proposals may therefore be rejected at IUCN's discretion. **The Technical Proposal – Workplan part maximum length is 5 pages A4, letter size 11** (you can also use figures – diagrams).

CVs must be of the individuals who will actually carry out the work specified. The individuals you put forward may only be substituted with IUCN's approval.

IUCN will evaluate Technical Proposals with regards to each of the following criteria and their relative importance:

	Description	Information to provide	Relative weight
1	Activity Work Plan and Methodology	Work plan setting out the activities and tasks identified in the Technical Approach by week and/or month for the duration of the assignment, and showing timing and duration of inputs by subcontractors, if any are used. Maximum length 5 pages.	30%
2	Personnel Qualification	Short summary of the Consultant's academic qualifications and professional experience relevant to the assignment (maximum 2 pages). Short summary of the relevant qualifications and professional experience of any subcontractors who will be engaged by the Consultant (maximum 2 pages per subcontractor). CVs of the Consultant and the subcontractor(s) (if any).	50%
3	Past Performance	Evidence of similar assignments undertaken by the Consultant within the last 5 years (maximum 5 pages). Contact details of 3 referees familiar with the Consultant's experience relevant to the assignment.	20%
TOTAL			100%

4.2 Financial Proposal

The Financial Proposal must be a fixed and firm price for the provision of the goods/services stated in the RfP in their entirety.

Prices include all costs.

The maximum budget for this assignment is set at **USD 10,000 (ten thousand US \$)**. Any proposal or bid exceeding this maximum is automatically disqualified and will not be considered

Submitted rates and prices are deemed to include all costs, insurances, taxes (except VAT, see below), fees, expenses, liabilities, obligations, risk and other things necessary for the performance of the Terms of Reference or Specification of Requirements. IUCN will not accept charges beyond those clearly stated in the Financial Proposal. This includes applicable withholding taxes and similar. It is your responsibility to determine whether such taxes apply to your organisation and to include them in your Financial Proposal.

Applicable Goods and Services Taxes

Proposal rates and prices shall be exclusive of Value Added Tax.

Currency of proposed rates and prices: All rates and prices submitted by Proposers shall be in US Dollar (USD).

Breakdown of rates and prices

All expenditures associated with this service will be managed by the selected service provider.

For information only, the price needs to be broken down as follows:

	Description	Quantity	Unit Price	Total Price
1				
2				
3				
	TOTAL			

Additional information not requested by IUCN should not be included in your Proposal and will not be considered in the evaluation.

Your Proposal must remain valid and capable of acceptance by IUCN for a period of **90 calendar days** following the submission deadline.

Withdrawals and Changes

You may freely withdraw or change your Proposal at any time prior to the submission deadline by written notice to the IUCN Contact. However, to reduce the risk of fraud, no changes or withdrawals will be accepted after the submission deadline.

5. Evaluation of Proposals

5.1 Completeness

IUCN will firstly check your Proposal for completeness. Incomplete Proposals will not be considered further.

5.2 Technical Evaluation

Scoring Method

Your Proposal will be assigned a score from 0 to 10 for each of the technical evaluation criteria, such that '0' is low and '10' is high.

Minimum Quality Thresholds

Proposals that receive a score of '0' for any of the criteria will not be considered further.

Technical Score

Your score for each technical evaluation criterion will be multiplied with the respective relative weight (see Section 5.4) and these weighted scores added together to give your Proposal's overall technical score.

5.3 Financial Evaluation and Financial Scores

The financial evaluation will be based upon the full total price you submit. Your Financial Proposal will receive a score calculated by dividing the lowest Financial Proposal that has passed the minimum quality thresholds (see Section 5.3.2) by the total price of your Financial Proposal.

Thus, for example, if your Financial Proposal is for a total of USD 100 and the lowest Financial Proposal is USD 80, you will receive a financial score of $80/100 = 80\%$

5.4 Total Score

Your Proposal's total score will be calculated as the weighted sum of your technical score and your financial score.

The relative weights will be:

Technical: 80%

Financial: 20%

Thus, for example, if your technical score is 83% and your financial score is 77%, you will receive a total score of $83 * 80\% + 77 * 20\% = 66.4\% + 15.4\% = 81.8\%$.

Subject to the requirements in **Sections 4 and 7**, IUCN will award the contract to the bidder whose Proposal achieves the highest total score.

6. Explanation of the procurement procedure

IUCN is using the Open Procedure for this procurement. This means that the contracting opportunity is published on IUCN's website and open to all interested parties to take part, subject to the conditions in Section 7 below.

You are welcome to ask questions or seek clarification regarding this procurement. Please email the IUCN Contact (**see Section 2**), taking note of the deadline for submission of questions in **Section 3**.

All Proposals must be received by the submission deadline in **Section 3** above. Late Proposals will not be considered. All Proposals received by the submission deadline will be evaluated by a team of evaluators in accordance with the evaluation criteria stated in this RfP. No other criteria will be used to evaluate Proposals. The contract will be awarded to the bidder whose Proposal received the highest Total Score. IUCN does, however, reserve the right to cancel the procurement and not award a contract at all.

IUCN will contact the bidder with the highest-scoring Proposal to finalise the contract. We will contact unsuccessful bidders after the contract has been awarded and provide detailed feedback. The timetable in Section 3 gives an estimate of when we expect to have completed the contract award, but this date may change depending on how long the evaluation of Proposals takes.

7. Conditions for participation in this procurement

To participate in this procurement, you are required to submit a Proposal, which fully complies with the instructions in this RfP and the Annexes.

It is your responsibility to ensure that you have submitted a complete and fully compliant Proposal.

Any incomplete or incorrectly completed Proposal submission may be deemed non-compliant, and as a result you may be unable to proceed further in the procurement process.

IUCN will query any obvious clerical errors in your Proposal and may, at IUCN's sole discretion, allow you to correct these, but only if doing so could not be perceived as giving you an unfair advantage.

In order to participate in this procurement, you must meet the following conditions:

- Free of conflicts of interest
- Registered on the relevant professional or trade register of the country in which you are established (or resident, if self-employed).
- In full compliance with your obligations relating to payment of social security contributions and of all applicable taxes.
- Not been convicted of failing to comply with environmental regulatory requirements or other legal requirements relating to sustainability and environmental protection.
- Not bankrupt or being wound
- Never been guilty of an offence concerning your professional conduct
- Not involved in fraud, corruption, a criminal organisation, money laundering, terrorism, or any other illegal activity.

You must complete and sign the Declaration of Undertaking (**see Annex 2**).

If you are participating in this procurement as a member of a joint venture, or are using sub-contractors, submit a separate Declaration of Undertaking for each member of the joint venture and sub-contractor, and be clear in your Proposal which parts of the goods/services are provided by each partner or sub-contractor.

Each bidder shall submit only one Proposal, either individually or as a partner in a joint venture. In case of joint venture, one company shall not be allowed to participate in two different joint ventures in the same procurement nor shall a company be allowed to submit a Proposal both on its behalf and as part of a joint venture for the same procurement. A bidder who submits or participates in more than one Proposal (other than as a subcontractor or in cases of alternatives that have been permitted or requested) shall cause all the Proposals with the bidder's participation to be disqualified.

By taking part in this procurement, you accept the conditions set out in this RfP, including the following:

- It is unacceptable to give or offer any gift or consideration to an employee or other representative of IUCN as a reward or inducement in relation to the awarding of a contract. Such action will give IUCN the right to exclude you from this and any future procurements, and to terminate any contract that may have been signed with you.
- Any attempt to obtain information from an employee or other representative of IUCN concerning another bidder will result in disqualification.

- Any price fixing or collusion with other bidders in relation to this procurement shall give IUCN the right to exclude you and any other involved bidder(s) from this and any future procurements and may constitute a criminal offence.

8. Confidentiality and Data Protection

IUCN follows the European Union's General Data Protection Regulation (GDPR). The information you submit to IUCN as part of this procurement will be treated as confidential and shared only as required to evaluate your Proposal in line with the procedure explained in this RfP, and for the maintenance of a clear audit trail. For audit purposes, IUCN is required to retain your Proposal in its entirety for 10 years after the end of the resulting contract and make this available to internal and external auditors and donors as and when requested.

In the Declaration of Undertaking (Annex 2) you need to give IUCN express permission to use the information you submit in this way, including personal data that forms part of your Proposal. Where you include personal data of your employees (e.g. CVs) in your Proposal, you need to have written permission from those individuals to share this information with IUCN, and for IUCN to use this information as indicated in 8.1. Without these permissions, IUCN will not be able to consider your Proposal.

9. Complaints Procedure

If you have a complaint or concern regarding the propriety of how a competitive process is or has been executed, then please contact procurement@iucn.org. Such complaints or concerns will be treated as confidential and are not considered in breach of the above restrictions on communication (Section 2).

10. Contract

The contract will be based on IUCN's template in Annex 3, the terms of which are not negotiable. They may, however, be amended by IUCN to reflect particular requirements from the donor funding this particular procurement.

11. About IUCN

IUCN is a membership Union uniquely composed of both government and civil society organisations. It provides public, private and non-governmental organisations with the knowledge and tools that enable human progress, economic development and nature conservation to take place together.

Headquartered in Switzerland, IUCN Secretariat comprises around 1,000 staff with offices in more than 50 countries.

Created in 1948, IUCN is now the world's largest and most diverse environmental network, harnessing the knowledge, resources and reach of more than 1,300 Member organisations and some 10,000 experts. It is a leading provider of conservation data, assessments and analysis. Its broad membership enables IUCN to fill the role of incubator and trusted repository of best practices, tools and international standards.

IUCN provides a neutral space in which diverse stakeholders including governments, NGOs, scientists, businesses, local communities, indigenous people's organisations and others can work together to forge and implement solutions to environmental challenges and achieve sustainable development.

Working with many partners and supporters, IUCN implements a large and diverse portfolio of conservation projects worldwide. Combining the latest science with the traditional

knowledge of local communities, these projects work to reverse habitat loss, restore ecosystems and improve people's well-being.

ANNEXES

- Annex 1 Specification of Requirements / Terms of Reference
- Annex 2 Declaration of Undertaking (select 2a for companies or 2b for self-employed as applicable to you)
- Annex 3 Contract Template (3a: Companies; 3b: Individual consultant)

Annex 1.

Terms of Reference (ToR) for consulting assignment: Collection of (meta-) data on water (including meteo) and river system monitoring network, Ma and Neun-Ca rivers, Lao PDR and assessment of its functionalities and performance.

Assignment for Lao PDR national consultant(s) (Individual or Company)

Date: January 2025

Introduction

IUCN Viet Nam/Lao PDR as Executing Agency is responsible for the implementation of the 'Fostering Water and Environmental Security in the Ma and Neun-Ca Transboundary River Basins and Related Coastal Areas, Viet Nam and Lao PDR'. The project started early 2024 and will be implemented in 5 years, with diverse activities in Lao PDR and in Viet Nam. GEF is the donor organization and FAO is the Implementing Agency and the national government partners are the Ministry of Natural Resources and Environment (MONRE) Viet Nam and MONRE Lao PDR.

The main objective of the Ca-Ma project is to enable Viet Nam and Lao PDR to address freshwater resource management and ecosystem health in the transboundary Neun – Ca and Ma river basins and coastal zones by creating an enabling environment for transboundary cooperation and action. The PMU project office is in Hanoi. Details of the integral project scope, objectives and activities can be shared on request.

The Results Framework of the project specifies project's Output 2.3 as: *Harmonized design of multi-purpose monitoring networks, and joint monitoring and data-sharing protocols.* To work towards achieving this output, first the project will conduct **an assessment of the current monitoring networks**. This assignment concerns that specific task, in Viet Nam, for the two river systems, their tributaries and the relevant parts of the coastal zone.

Figure 1: Map of the two river basins. Note: some important tributaries are not shown.

Assignment: assessment of the current monitoring networks, quality of data collection, river monitoring system functionality and performance (mostly desk study).

The project aims to collect relevant (meta)data on the water monitoring network, especially on the river systems (river discharge, water quality, water allocation), groundwater, etc.) in order to better understand the current infrastructure status, and system functionalities and performance.

There are different monitoring systems in place in both river basins to oversee the water resources sector, including hydro-meteorological, water resources, disaster mitigation (floods), and possibly environmental stations. The hydro-meteorological and water resources stations monitor both water quantity and quality, while the environmental stations focus solely on measuring water quality.

We expect (and like to know for sure) that these monitoring stations are operated by various state departments and agencies such as the Department for Hydrology and Meteorology (DMH-MONRE), possibly under MAF – Ministry for Agriculture and Forestry, other agencies (like NMC-Lao PDR, MRC), or possibly monitoring from even earlier or ongoing projects. They are a crucial part of the infrastructure and data collection activities concerning water in the Lao PDR territory. Also, hydropower companies/reservoir operators collect data on reservoir in- and outflow. Finally, there might be some provincial / local agencies that may independently collect data on the river system, irrigation intakes, water quality, groundwater exploitation or other purposes.

This assignment concerns the collection and analysis of (meta) data on all monitoring network components (surface water, groundwater, water quality, and meteo-monitoring system) on the Ma and Neun-Ca rivers basin (only Lao PDR territories).

A range of simple to more complicated questions need to be answered. The focus of this assignment is on the currently existing networks – data collection and including an outlook on what are significant developments ongoing and in the next 3-10 years (a number of government initiatives are taking place that guide the construction and activation of new monitoring stations).

As initial guidance the matrix structure in Figures 2 can be used.

1. Where are the monitoring stations? (operational since when, which parameters, what happens with the data?). Provide maps (preferably GIS shapefiles) and data files.
2. What kind of data are collected and what is the quality (completeness: is the time series complete or are there interruptions, what about the frequency of collecting?) of data time series ?

	summary	list of stations	list of stations	list of stations, name, coordinates, recording since....	
	Meteo-Weather	River Discharge	Water Quality	Groundwater	Other (Disaster mitigation ?)
MONRE-DMH	National System Neun (Ca) river Ma river Reference to Map	Neun (Ca) river Ma river	Neun (Ca) river Ma river	xx stations, existing, proposed	
MAF		Some data is collected by private entities, viz. Irrigation companies			
PAFO	External data providers Irrigation Companies, etc.				
Provinces		Some data is collected by provincial agencies			
Reservoir / Dam Operators					
or other projects related					

Figure 2: Possible matrix structure to guide the collection of data on the monitoring networks.

3. What happens with the data? Who is the owner? Are there data sharing arrangements, for instance with MONRE's Dept. of Meteorology and Hydrology? If necessary for important data sets, conduct an interview with the data owner.
4. What kind of data and information management tools are used? Software? What are the functionalities of this software; who is/are the owners, and users?

5. Relevant recent developments/improvements/upgrades of the monitoring system. Are there expected further developments in the near future, for instance already approved by MONRE or MAF (or other relevant government initiatives).

Figure 3: Example of river discharge (hydrograph) data, Nam Xam river, Sam Neua. Details of monitoring station not known. (Source: Earth Systems, 2021).

The consultant (or consultants) should report the results of the analysis in a clearly structured report(s), for instance following the structure of Figure 1. If it is useful to include data sets (as an example, to explain statements about data quality, we are not looking for all the primary data), these can be added as soft copies.

In a conclusive Chapter of the Report, the consultant is requested to give an assessment of the monitoring network:

6. Indicative assessment: How would the monitoring network score on a range of 1-10 as regards to its:
 - a. Completeness and quality of the collected data set
 - b. The quality and completeness (range of functions) of the data management system and integration software used (possibly multiple data management systems).
 - c. In the case there is a low score; what would be essential improvements?

Obviously, the scoring given should be clarified in the report.

The assignment will be for around **30 full working days of consultants' time input (Indicative)**, working as desk study, with some meetings with relevant parties as needed. The assignment will have to be completed **before the end of April 2025.**

The consultant is free to appoint the required experts as deemed necessary. The assignment will start with a preparation meeting with IUCN's PMU and DWR teams (in Vientiane). Short field visits to conduct interviews with the monitoring station / data owners can be part of the execution tasks.

Deliverables / Output format

The consultant is requested to prepare an integrated report in English (hard and soft copy). Preferably, source materials (reports, database output, overview of data reports in Excel sheets) will be annexed (hard and soft copies); if possible relevant maps will be provided as GIS shape files.

A summary presentation (PPT) in English and Lao will also be prepared. The consultant will be requested to present and discuss the final results in a meeting with IUCN's PMU, with DWR representatives attending (max 3-hour meeting in Vientiane).

Contractor Expertise and Experience

The consultant should have the following expertise and experience: -

- Extensive experience and/or knowledge on hydro-meteo monitoring systems and hydrological data collection and management, covering systems under the responsibility of MONRE, MAF, hydropower/reservoir operators and affiliated agencies, provinces in Lao PDR.
- Demonstrable experience in similar assignments (water, weather, river, data collection, integration).
- Experience working on international development projects, in particular on hydrological studies and system analysis.

Application Submission

Interested individuals – nationals or organisations from Lao PDR - are invited to submit their application – **in English**, including CVs of the designated experts, project references and a short proposal / comment on the assignment, stating their approach to the assignment. Relevant references about expertise and earlier project experience can be added in a separate document.

Financial proposal: The consultancy rate per day and month should be proposed in a separate document, clearly stating the total amount for the 70 days (indicative) assignment.

Submit to: rien.dam@iucn.org; nhung.phamhong@iucn.org; manh.levan@iucn.org

Submission Deadline: 24 February 2025

Evaluation Criteria

Consultants will be evaluated based on:

1. Expert qualifications (CV's)
2. Relevant experience of the organisation(s) (project references)
3. Submitted proposal - Workplan
4. Budget proposed (Financial score)

ANNEX 2A: DECLARATION OF UNDERTAKING in relation to RfP <insert RfP reference>

I, the undersigned, hereby confirm that I am an authorised representative of the following organisation:

Registered Name of Organisation (the "Organisation"): _____

Registered Address (incl. country): _____

Year of Registration: _____

I hereby authorise IUCN to store and use the information included in the attached Proposal for the purpose of evaluating Proposals and selecting the Proposal IUCN deems the most favourable. I acknowledge that IUCN is required to retain the Proposal in its entirety for 10 years after then end of the resulting contract and make this available to internal and external auditors and donors as and when reasonably requested.

Where the Proposal includes Personal Data as defined by the European Union's General Data Protection Regulation (GDPR), I confirm that the Organisation has been authorised by each Data Subject to share this Data with IUCN for the purposes stated above.

I further confirm that the following statements are correct:

1. The Organisation is duly registered in accordance with all applicable laws.
2. The Organisation is fully compliant with all its tax and social security obligations.
3. The Organisation and its staff and representatives are free of any real or perceived conflicts of interest with regards to IUCN and its Mission.
4. The Organisation agrees to declare to IUCN any real or perceived emerging conflicts of interests it or any of its staff and representatives may have concerning IUCN. The Organisation acknowledges that IUCN may terminate any contracts with the Organisation that would, in IUCN sole discretion, be negatively affected by such conflicts of interests.
5. None of the Organisation's staff has ever been convicted of grave professional misconduct or any other offence concerning their professional conduct.
6. Neither the Organisation nor any of its staff and representatives have ever been convicted of fraud, corruption, money laundering, supporting terrorism or involvement in a criminal organisation.
7. The Organisation acknowledges that engagement by itself or any of its staff in fraud, corruption, money laundering, supporting terrorism or involvement in a criminal organisation will entitle IUCN to terminate any and all contracts with the Organisation with immediate effect.
8. The Organisation is a going concern and is not bankrupt or being wound up, is not having its affairs administered by the courts, has not suspended business activities, is not the subject of proceedings concerning those matters, or in any analogous situation arising from a similar procedure provided for in national legislation or regulations.
9. The Organisation complies with all applicable environmental regulatory requirements or other legal requirements relating to sustainability and environmental protection.
10. The Organisation is not included in the UN Security Council Sanctions List, EU Sanctions Map, US Office of Foreign Assets Control Sanctions List, or the World Bank listing of ineligible firms and individuals. The Organisation agrees that it will not provide direct or indirect support to firms and individuals included in these lists.
11. The Organisation has not been, is not, and will not be involved or implicated in any violations of Indigenous Peoples' rights, or injustice or abuse of human rights related to other groups or individuals, including forced evictions, violation of fundamental rights of workers as defined by the International Labour Organization's (ILO) Declaration on the Fundamental Principles and Rights at Work, child labour, sexual exploitation, sexual abuse, or sexual harassment.

<Date, name, position and signature of authorised representative of the Proposer>

ANNEX 2B: DECLARATION in relation to RfP

<insert RfP reference>

I, the undersigned, hereby confirm that I am self-employed and able to provide the service independent of any organisation or other legal entity.

Full name (as in passport/Identity card):

Home or Office (please delete as appropriate) Address (incl. country):

I hereby authorise IUCN to store and use the information included in the attached Proposal for the purpose of evaluating Proposals and selecting the Proposal IUCN deems the most favourable, including Personal Data as defined by the European Union's General Data Protection Regulation (GDPR). I acknowledge that IUCN is required to retain my Proposal in its entirety for 10 years after the end of the resulting contract and make this available to internal and external auditors and donors as and when reasonably requested.

I further confirm that the following statements are correct:

1. I am legally registered as self-employed in accordance with all applicable laws.
2. I am fully compliant with all my tax and social security obligations.
3. I am free of any real or perceived conflicts of interest with regards to IUCN and its Mission.
4. I agree to declare to IUCN any real or perceived emerging conflicts of interests I may have concerning IUCN. I acknowledge that IUCN may terminate any contracts with me that would, in IUCN sole discretion, be negatively affected by such conflicts of interests.
5. I have never been convicted of grave professional misconduct or any other offence concerning my professional conduct.
6. I have never been convicted of fraud, corruption, money laundering, supporting terrorism or involvement in a criminal organisation.
7. I acknowledge that engagement in fraud, corruption, money laundering, supporting terrorism or involvement in a criminal organisation will entitle IUCN to terminate any and all contracts with me with immediate effect.
8. I am not included in the UN Security Council Sanctions List, EU Sanctions Map, US Office of Foreign Assets Control Sanctions List, or the World Bank listing of ineligible firms and individuals. I agree that I will not provide direct or indirect support to firms and individuals included in these lists.
9. I have not been, am not, and will not be involved or implicated in any violations of Indigenous Peoples' rights, or injustice or abuse of human rights related to other groups or individuals, including forced evictions, violation of fundamental rights of workers as defined by the International Labour Organization's (ILO) Declaration on the Fundamental Principles and Rights at Work, child labour, sexual exploitation, sexual abuse, or sexual harassment.

Date and Signature>

Annex 3 Contract Templates (3a: Companies; 3b: Individual consultant)

Will be made available for the selected bidder.
