

## ***Engineer I, Hydrological***

Division: Science & Licensing

Unit: Hydrology Services South

Location: Saskatoon, SK

Salary (Annually): \$86,484 - \$108,120 (MC5)

**Competition Number: WSA-06-2025/26**

*Engineer-in-training candidates who do not meet all the qualifications will be considered and evaluated based on their relevant experience to determine their appropriate level.*

Are you motivated by doing meaningful work and being part of an organization committed to learning and growth? Come join our diverse and passionate team of professionals as an Engineer!

We are looking for a dedicated Engineer who demonstrates a balanced blend of technical proficiency, analytical thinking, effective communication, and a commitment to ownership, accountability, and ethical professional standards.

As an Engineer, you will provide technical expertise and support across a range of provincial programs, including Dam Safety, Flood Damage Reduction, Irrigation Development, and Agricultural Water Management.

The role will guide and undertake hydrologic and hydraulic studies of varying complexity and significance to support the design and surface water development projects and watershed management strategies.

Key responsibilities of this position include analyzing hydrometric and meteorological data, conducting water supply and flood risk assessments, performing

hydrological and hydraulic modeling, data interpretation, preparing technical reports, collaborating with stakeholders and participating in inter-agency committees.

The successful candidate will have a degree in an Engineering discipline, a license to practice professional engineering from the Association of Professional Engineers and Geoscientists of Saskatchewan (APEGS), and 4 years of related experience.

This role is subject to a satisfactory criminal record check. We offer rewarding career opportunities, competitive salaries, and a comprehensive benefits package.
