

Engineer II, Flow Forecasting & Operations Planning

Division: Science & Licensing

Unit: Flow Forecasting

Location: Moose Jaw, SK

Salary (Annually): \$93,408 - \$116,760 (MC6)

Competition Number: WSA-12-2025/26

Candidates who do not have the required years of experience may be considered and evaluated based on their relevant experience to determine their appropriate level.

Are you motivated by doing meaningful work and being part of an organization committed to learning and growth? Come join our diverse and passionate team of professionals as an Engineer!

We are looking for a dedicated Engineer who demonstrates a balanced blend of technical proficiency, analytical thinking, effective communication, and a commitment to ownership, accountability, and ethical professional standards.

As an Engineer II, you will provide professional engineering expertise for forecasting stream flows for internal and external use, and for operation planning of major river systems requiring the real-time analysis, interpretation and distribution of forecasting and operations management information.

You will also provide support for the efficient and timely communication of information to other WSA units, various government ministries, and other external clients to ensure water resource infrastructure integrity and to maximize public safety and benefit.

The successful candidate will have a degree in Civil Engineering or a similar engineering discipline, a license to practice professional engineering from the Association of Professional Engineers and Geoscientists of Saskatchewan (APEGS), and 6 years of related experience.

This role is subject to a satisfactory criminal record check.

We offer rewarding career opportunities, competitive salaries, and a comprehensive benefits package.
