

Communications Internship at Water Europe

Are you passionate about storytelling and eager to make a real impact through communication?

We are offering an exciting opportunity for a motivated and creative student to join Water Europe's Communications Team as a Communications Intern. This internship offers hands-on experience in European science and environmental communication, giving you the chance to contribute to projects and work with professionals who are shaping the future of water in Europe.

Your Key Responsibilities

During your internship, you will gain practical experience in European-level science communication, digital media strategy and stakeholder engagement. As part of the Communications Team, you will:

- Create compelling content for newsletters, press releases, websites, and social media platforms.
- Contribute to storytelling around EU-funded projects and initiatives that advance the Water-Smart Society vision.
- Support communication strategies and outreach campaigns for European projects coordinated by Water Europe.
- Assist in managing project websites and social media channels, ensuring consistent and engaging messaging.
- Help plan and promote project-related events and outreach campaigns.
- Monitor and report on communication activities, contributing to reports and deliverables.
- Support the overall work of the Communications pillar, bringing creativity and enthusiasm to every task.

What we're looking for

- A Bachelor's or Master's student in Communication, Journalism, Environmental Studies, or a related field.
- Excellent command of English, with strong writing, editing, and proofreading skills.
- Proficiency in Microsoft Office (especially PowerPoint & Word) and skills in graphic design software (InDesign, Illustrator, Photoshop, or Canva) are a plus.
- Eager to learn, grow, and make an impact through creative communication.

Practical Information

- Duration: 4–6 months, starting January 2026 (flexible)
- A monthly allowance is provided to support living expenses during the internship.
- The internship can be completed remotely from your home country.
- Eligibility: Open to students currently enrolled in a degree programme or recent graduate.
- How to apply: Please send your application, including your CV, cover letter, and a short portfolio of articles or social media posts (if available) to communication@watereurope.eu by the **8th of December COB**.
