

## ***Engineer I, Hydrology***

Division: Science & Licensing

Unit: Science & Knowledge

Location: Saskatoon, SK

Salary: \$88,212 - \$110,280 (MC 5)

**Competition Number: WSA-04-2026/27**

Water Security Agency (WSA) is seeking a technically strong and collaborative professional to join our team as a Engineer I, Hydrology.

In this role, you will apply your expertise in hydrology and hydraulics to support a wide range of provincial programs from flood risk and water supply assessments to infrastructure design and watershed management. This role requires strong analytical capability to interpret hydrometric and meteorological data, develop and adapt models, and translate complex results into clear, actionable insights.

This role requires effective communication by preparing technical reports and presentations for diverse audiences, while building strong relationships through collaboration with internal teams, stakeholders, and inter-agency committees. Success in this role will rely on your ability to think critically, manage multiple priorities, and contribute to informed decision-making across programs.

If you're driven by technical excellence, continuous learning, and meaningful environmental impact, this is your opportunity to make a difference.

The successful candidate will have a Degree in an Engineering or Geoscience discipline, a licence to practice professional engineering or geoscience from the Association of Professional Engineers and Geoscientists of Saskatchewan (APEGS) and 4 years of related experience.

This role is subject to a satisfactory criminal record check.

We offer rewarding career opportunities, competitive salaries, and a comprehensive benefits package.
